

## **INTERNSHIPS & VOLUNTEER OPPORTUNITIES**

The Visual Art Library offers students, graduates, post-graduates, and scholars the opportunity to gain invaluable hands-on experience in an arts library. This includes library management, research, and educational and career experience in the fields of archival materials and visual literacy. Interns are given meaningful projects that further their stated interests and offer them the potential for significant levels of responsibility in support of the Visual Art Library nonprofit mission and projects. Interns benefit from interaction with the Founding Director George Waterman, the library archives, visiting scholars and other interns that take part in the library projects.

Internship positions are unpaid, but may be available for university credit by prior arrangement with your institution.

We typically request a minimum time commitment of 160 hours, often completed through 20 hours per week over two months. Qualified students may apply in accordance with applicant's college curriculum. Virtual research and project internships are available for those outside of the New London, CT area.

*Applicants may send a résumé and cover letter describing their interest in the Visual Art Library and their career goals to: [info@visualartlibrary.org](mailto:info@visualartlibrary.org) with "Internship Application: Your Name" in the subject line.*

## **VOLUNTEERS**

Volunteers are welcome. Provisions' volunteers help with library management, grants management, social media, video documentation, and special projects suited to their interests.
